

Example of Photos placed in a Word document

Here are some guidelines to follow:

- Provide multiple angle pictures of the areas of concern
- For areas that are normally covered by clothing, please be sure to remove your clothing to expose the area to be photographed
- For privacy purposes, do not expose your face with any pictures of a private nature (i.e. - genitalia, breasts, buttock, etc.)

Once you have created your Word document with photos, please save the file as:
